SALVAGE PHOTOS

Before and After Color Photos must show all four sides completely. The pictures below are correct except for Picture D. Notice that the rear bumper is cut off. This picture would be unacceptable. Vehicle must be free of debris and snow.

You can do your pictures in two shots, but must show two complete sides in each picture. Pictures E & F are acceptable. The front driver side is cut off in Picture G, so it would be rejected.

Polaroid Photos are acceptable, however all photos must be legible. If your picture is blurred, take another one. Pictures must be the size of a standard snapshot or larger. Pictures smaller than a standard Polaroid are not acceptable. (Approx 2 ¼ x 4 ¼ inches) If you do not have before photos, try and contact where you bought the vehicle. If they can not supply you with acceptable pictures, a Property Damage Report, available from the Insurance Company who sold the vehicle as Salvage, is required.

Photo Quality Paper is Recommended!

Any questions, PLEASE feel free to contact the Site Supervisor where your Salvage Inspection is done.
